

H2Compute provides cutting edge software solutions for over two decades for organizations all over the world (Asia, Europe and the Americas region).

We use the latest innovative technology, namely, Augmented Reality and Mobile Applications as well as Progressive Web Applications (Combining web and app) and Azure to support our customers.

We are hiring! Technical Writer

Key Responsibilities

- Develop comprehensive documentation that meets organizational standards.
- Write user-friendly content that meets the needs of target audience, turning insights into language for user success.
- Research, outline, write, and edit content, working closely with various departments to understand project requirements.
- Gather information from subject-matter experts and develop, organize, and write procedure manuals, technical specifications, and process documentation.
- Develop content in alternative media forms for maximum usability, with consistent voice across all documentation.
- Gain deep understanding of products and services, and translate complex information into simple, polished, and engaging content.
- Analyze user feedback, metrics, and data to improve the quality and usability of the documentation.

Skills and Qualifications

- A bachelor's degree in IT or equivalent from a recognized university.
- Two or more years of experience as an effective technical writer.
- Proven ability to quickly learn and understand complex subject matter.
- Experience in writing validation documentation, procedure, and manuals for various audiences.
- Superb written and communication skills in English, with a keen eye for detail.
- Ability to handle multiple projects simultaneously.
- Good understanding of SDLC (systems development lifecycle).

What's in it for you?

- An attractive salary that reflects your skills and experience.
- Global exposure and career development support.
- Career growth which includes travel to customer location around the globe.
- Medical/Insurance cover.
- Work friendly environment/Excellent work-life balance.
- More space to be you!
